LEADERSHIP DEVELOPMENT**

ORIENTATION

Beginning college is a fun and exciting time for students and their families. It can also be a bit overwhelming. To assist with this transition, Daemen College offers orientation programs for first-year students, transfers, and families. The goal of orientation is to develop and coordinate programs that promote academic success, support personal and social development, and provide students and families with information about the services, support systems and issues facing college students.

Student Orientations:

Daemen offers programs for both first-year and transfer students to aid new students with their transition to Daemen. These programs provide students the tools needed to be successful at Daemen. All new students are required to attend an orientation program.

Parent Orientations:

Daemen College is a place for students to make new friends, develop new skills, and learn about themselves and the world. Parents/guardians need to be aware that their sons and daughters are making many new transitions at this time in their life. To help with this transition, we invite all parents/guardians of incoming first-year students to our Parent Orientation. The parent program schedule runs concurrently with, but separate from, the student orientation to meet the different needs of students and parents/guardians.
